

County: Baker

Region: Northeast

1. Introduction & Purpose of Plan

Brief history of digital mapping of taxlots:

Baker County completed the conversion of their digitized maps into a usable base map for a Geographic Information System(GIS) on June 30, 2002. This phase of the project was completed by ESU with the Oregon Department of Revenue, Cartographic unit and the Baker County Assessor's office doing quality control. Baker County's assessment maps are currently on the internet as a '*.PDF', which is hosted by the State of Oregon. The location for these maps is 'ORMAP.COM'. As baker county begins to put the map files together in a county wide database we will need to edgematch between the map boundaries.

5. Timeline

Timeline to complete maps:
 This is Baker County's estimated plan and is subject to change.

This timeline table is to summarize what your county's plans are for meeting the ORMAP Technical Specifications (Goal 6). This information is compiled with the plans from other counties and used by the Department of Revenue and the ORMAP Advisory Committee to administer the ORMAP Project. For each cycle that you will be requesting ORMAP funds, please include a brief description of the project, the estimated dollar amount to be requested, the approximate number of taxlots to be completed, and the actual number of taxlots and tax maps completed to date.
